---

Characteristic	Value
Project's name	Epic Road Trip
Suggested Team size	3-4 students
Theme	web dev
Suggested tool	jasmine, swagger, gulps
Suggested language	
Specific hardware needed	no
Specific resources needed	no

- Pitch
  - **Short edit:**  
Build an amazing trip planner web application.
  - **Long edit:**  
Help people to organize a vacation, with a fully-functionnal and documented web application which gathers intel, and suggests events and services (chill, eat, drink, sleep, have fun, ...). To become a greater web developer, you have to use **Test Driven Development** in order to deliver a responsive and accesible application.
